Quality Bed & Breakfast
and Self Contained Accommodation

Port Arthur - Tasmania

Experience a sea change

Tucked away at Safety Cove on the Tasman Peninsula, an hour's drive from Hobart and just 5 kilometres from the Port Arthur Historic Site, is one of the Peninsula's best kept secrets, Sea Change Safety Cove.

Showcasing the breathtaking beauty of the peninsula. Famous for its rugged rock formations and dramatic coastline, the area also has its softer side with its sheltered beaches with crystal clear waters and sparkling white sand to rainforest walks.

The two-storey Sea Change Safety Cove property offers two styles of accommodation. Downstairs we provide quality self-contained accommodation for up to five people. The large two bedroom unit has a bathroom, kitchen and lounge with wood fire and ocean views. Upstairs the property offers two double bed and breakfast rooms with ensuite accommodation with breathtaking ocean or beach views. The extensive verandah, the lovely garden setting, complete with Barbeque facilities, compliment the magnificent view.

Your hosts, Rex and Sue Mapley, can make the necessary bookings at any of the fine local restaurants and provide information on the many features and activities that the Tasman Peninsula has to offer.

Sea Change Safety Cove leaves a lasting impression on every visitor.

Sea Change Safety Cove

“It's just magical to wake up and look out over the beach and Tasman Island. It really is spectacular.”

Sue and Rex Mapley started planning their escape to Safety Cove many years ago and have been sharing their slice of paradise with visitors since opening their Sea Change Bed and Breakfast and Self-contained accommodation in January 1999.

The first thing you notice when you arrive at Sea Change Safety Cove is the spectacular view. Stretching from the sandy shores of Safety Cove Beach to the towering sea cliffs of Tasman Island and Cape Pillar.
